Graded Word List

Over 5,000 words arranged in a carefully-crafted teaching order. Starting with a base of the Dorothy E. Miller Phonics list we then added all the essential vocabulary contained in the Word Building and Word Group Lists and analysed this vocabulary against our research on frequency usage. All missing high frequency words were then included. The resulting list was divided into grade appropriate levels. Finally we added three sets of Extension words. Extension 1 covers advanced word building and Extensions 2 and 3 have 1,000 words arranged in alphabetical order.
